

## **Home Learning (homework) expectations at KS4**

At KS4 there is an expectation that students receive the following amount of home learning (which is in line with the school's home learning policy of *-Between 90 and 120 minutes per night plus revision for 2 months prior to examinations*)

2 hours per fortnight for Core subjects (English, Maths and Science)

1 ½ hours per fortnight for Option subjects

Home learning could consist of a number of shorter pieces or an extended project; the completion time should **NOT** be the following day.

It is also expected that there will be evidence of home learning in student planners **each week**.
